

FERTILIZER

Black Magic

EXTRATM 25-9-9 + Micros

Advanced Technology - 3 Stage Release - Fertilizer

- > **Black Magic EXTRA** is the advanced technology answer for a more predictable, safer and broader range of Nitrogen release from extremely wet to dry soil conditions.
- > **Black Magic EXTRA** contains three different color-coded Nitrogen sources, **Tan** (2-3 month release), **Green** (4-6 month release) and **Blue** (6-12 month release). The **Tan** colored prills are polymer coated Whereas the **Green** and **Blue** prills are solid polymers, that can't be damaged by machinery or rough handling.
- > The **Green** and **Blue** prills have a much lower salt index <10, compared with ammonium nitrate 105, ammonium sulfate 70 and urea 75. Loss of available Nitrogen is 3 times less than IBDU (isobutylidene diurea), 5 times less than SCU (sulfur coated urea) and 10 times less than urea.
- > **Black Magic EXTRA** is designed to release over 6-12 months using the 10, 20 or 30 gram tea bag/seedling application rate throughout the growing season, with 2% Humic Acid and a specially designed Micronutrient package.

Guaranteed Analysis

Total Nitrogen	25.05%
22.23% Slow Release Nitrogen	
1.94% Ammoniacal Nitrogen	
0.87% Urea Nitrogen	
Available Phosphoric Acid	9.18%
Soluble Potash	9.26%
Sulphur	4.70%
Magnesium	0.88%
Boron	0.05%
Copper	0.05%
Iron	0.30%
Manganese	0.13%
Zinc	0.12%
Humic Acid	2.0%

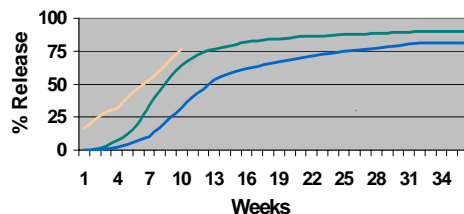

313 Red Cedar, 56cm, 10g - 7 Months

Planting Instructions

- 10 & 20 gram tea bags** : Place 2 inches from plug, on uphill side, 1 inch deep
- 30 gram tea bags** : Place 3 inches from plug, on uphill side, 1 inch deep

Black Magic Extra - Release Curve

Tan (2-3 months) Green (4-6 months) Blue (6-12 months) 412B Douglas Fir, 81cm (61cm Leader), 10g - 7 Months
