

FERTILIZER

Black Magic

ULTRA 25-9-9 + Micros

Maximum Protection & Performance !

- > Our *Black Magic Extra* 25-9-9 formula with **10% added sulfur** AND *AquaZorb* granules, give your trees the best possible advantages for outstanding growth, performance and survival under the most severe growing conditions.
- > *Black Magic Ultra* contains three different color-coded Nitrogen sources, **Tan** (2-3 month release), **Green** (4-6 month release) and **Blue** (6-12 month release) for a more predictable, safer, broader range of Nitrogen release in areas with dry soil conditions.
- > **10% added Sulphur**, helps protect young seedlings from attack by insects, diseases and animal injury during the year of establishment. Sulphur protects plants by emitting an offensive odor and by producing toxic substances in plants throughout the growing season.
- > *AquaZorb* granules absorb and release **175 - 300 times** their weight in water over several growing seasons providing added growth insurance under variable weather conditions.
- > *Black Magic Ultra* is designed to release over 6-12 months using the **10, 20 or 30 gram tea bag/seedling** application rate throughout the growing season, with the same 2% Humic Acid and Micronutrient package used in our *Black Magic Extra* 25-9-9.
- > The **10, 20 or 30 gram tea bag/seedling** application rate provides for increased survival, growth, and faster green-up, decreasing browsing pressure, brushing and replanting costs.
- > *Black Magic Ultra* 25-9-9 contains all the Nitrogen, Phosphorous, Potassium & Micronutrients necessary to produce **Bigger Trees Faster** for increased yield, quality, and profit.

Guaranteed Analysis

Total Nitrogen	25.05%
22.23% Slow Release Nitrogen	
1.94% Ammoniacal Nitrogen	
0.87% Urea Nitrogen	
Available Phosphoric Acid	9.18%
Soluble Potash	9.26%
Sulphur	14.7%
Magnesium	0.88%
Boron	0.05%
Copper	0.05%
Iron	0.30%
Manganese	0.13%
Zinc	0.12%
Humic Acid	2.0%

412B D. Fir, 10g BMX, 138cm tall, 72 cm leader, 2 years old

Planting Instructions

- 10 & 20 gram tea bags** : Place 2 inches from plug, on uphill side, 1 inch deep
- 30 gram tea bags** : Place 3 inches from plug, on uphill side, 1 inch deep
